

LIFTING SOLUTIONS

EXPERIENCE PERFORMANCE.

DRIVING INNOVATION FOR A SUSTAINABLE FUTURE

Lifting Solutions engineers and manufactures artificial lift products and delivers related services to optimize oil and gas production systems. With locations across the world, our team of technical specialists have the knowledge and experience to support your artificial lift needs to outperform the market!

Our unwavering commitment to excellence has earned us a trusted reputation among energy companies worldwide. Our approach is rooted in vertically integrated manufacturing, stringent quality controls, and industry-leading ISO 9001:2015 certification for our state-of-the-art manufacturing facilities.

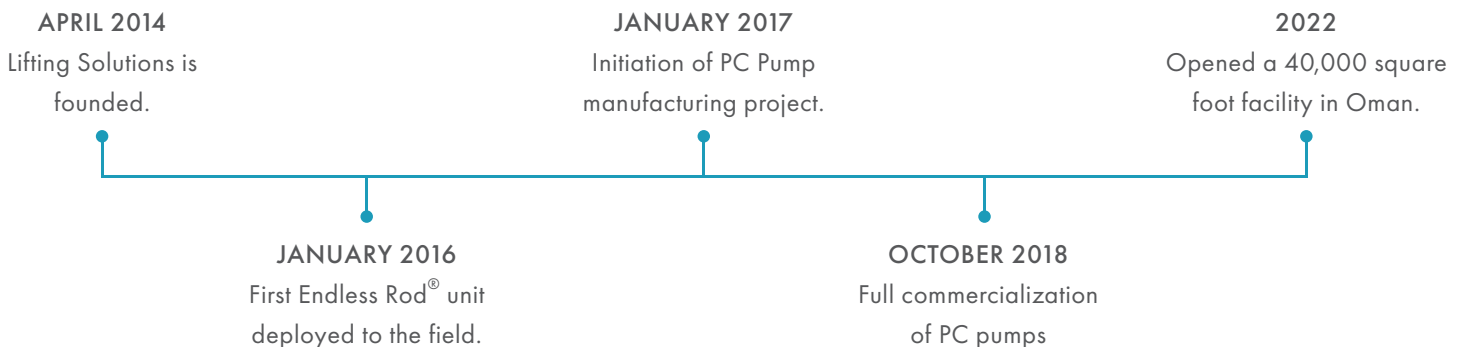

Our Edmonton, Alberta facility boasts a design output of over 8,000,000 feet per year, while our Salalah, Oman facility contributes 6,500,000 feet annually. Together with the support of our partners across the globe, we ship over 7 million feet of Endless Rod and 4,000 Progressing Cavity Pumps annually.

Operating from 17 locations across three countries, our dynamic team of over 300 experts demonstrates an unwavering commitment to quality, innovation, and customer satisfaction.

With the largest service fleet of 74 units, we provide swift support to our clients, ensuring that we consistently meet their needs with unparalleled efficiency.
