

ENDLESS ROD™ WELDER

TRUCK OR TRAILER
MOUNTED

INDUSTRY-LEADING WELDER

The Lifting Solutions Endless Rod Welder (ERW) is designed to provide our clients with an efficient, cost effective solution for on-site welding of any brand, size, and shape of continuous rod. Our ERW utilizes a patented oxy-acetylene process that provides a superior weld that meets our Endless Rod original manufacturer's specifications. The ERW can be deployed as a trailer mounted unit pulled behind a light truck, or our larger Truck Mounted Gripper (TMG). The ERW is also available in a heavy truck mounted unit that can pull a specialized continuous rod trailer to deliver new continuous rod to the well site.

FEATURES AND BENEFITS

- Highly mobile
- The welding process meets our Endless Rod OEM specifications
- Operated by highly trained field professionals

APPLICATIONS

- All continuous rod welding applications including attaching top and bottom pin ends and rod body welds
- If truck mounted, the ERW can be paired with a specialized trailer to deliver new Endless Rod

ENDLESS ROD is a trademark owned by Lifting Solutions Inc. This trademark is currently registered in Canada and the USA.
